Maternal Screen Testing: Change in Testing Laboratory

Date: December 02, 2021

Effective Date: January 5, 2022

Maternal Serum Screening will be performed at a reference laboratory, ARUP Laboratories.

Test	New Order Test Code	Old Order Test Code
Maternal Serum Screen, First Trimester	MSSFT	FSCR1
Maternal Serum Screen, Alpha Fetoprotein	MSSAF	MAFPS
Maternal Serum Screen, Alpha Fetoprotein, hCG, Estriol, & Inhibin A (Quad screen)	MSSQA	MSAQ4

Weight and due date EDC are required for all patients.

Ultrasound Information is required for First Trimester testing.

Failure to provide this information on the requisition or in eRecord will result in delayed reporting.

There is no expected change to turnaround times for these tests.

Notification of positive results will remain unchanged with review and follow up by genetic counselors.
